

Enrollment Plan for 2017 Academic Year of Shanghai University of Electric Power

- A. 1-year Chinese Language Program
1. Number of students to be admitted: 30 to form a class
 2. Program includes intensive Chinese language learning
 3. Tuition fee: CNY10,000 per year
- B. 1-year foundation program including Chinese Language and mathematics and physics learning
1. Number of students to be admitted: 30 to form a class
 2. Program includes intensive Chinese language learning and mathematics and physics taught in English, which will prepare the students to apply for bachelor degree program after 1-year study
 3. Tuition fee: CNY15,000 per year

Please note: No scholarship is provided to students applying for Program A or B.

- C. Bachelor degree programs
1. Admission Requirements:
 - HSK 4 and above (Chinese Language Proficiency Test) and High School Diploma
 2. Teaching language: Chinese (80%) and English (20%)
 3. Tuition fee: CNY 23000 per academic year for Science and Engineering Programs
CNY20000 per academic year for Management, Economics and Liberal Arts Programs
 4. Scholarships and Tuition Waive Scheme:
 - Waive of full tuition fee and insurance if sponsored by Shanghai Government Scholarship (Plan B);
 - Partial waive of tuition fee by the deduction of CNY11000 per academic year per student so that the tuition for science & engineering programs is CNY 12000 per academic year and for management, economics and liberal arts programs is CNY9000 per academic year.
 5. Please refer to attachment for majors offered for bachelor degree Programs
- D. Master Degree Programs
1. Requirements:
 - HSK 4 and above (Chinese Language Proficiency Test)
 - Bachelor degree in related academic background
 2. The total study period is 2.5 years with the 1st year focused on coursework study and the rest period focused on researching and thesis writing.
 3. Teaching language: Chinese (70%) and English (30%)
 4. Tuition fee: CNY 23000 per academic year for Science and Engineering Programs
CNY20000 per academic year for Management, Economics and Liberal Arts Programs
 5. Scholarships and Tuition Waive Scheme:
 - Waive of full tuition fee and insurance if sponsored by Shanghai Government Scholarship (Plan B);
 - Partial waive of tuition fee by the deduction of CNY13000 per academic year per student so that the tuition for science & engineering programs is CNY 16000 per academic year and for management, economics and liberal arts programs is CNY12000 per academic year.
 6. Please refer to attachment for majors offered for master degree programs
- E. Accommodation and other costs
1. On-campus accommodation is available with a rental of CNY10500 per room per year (each room allows a maximum of 3 renters) and free use of public kitchen
 2. CNY800 per year for insurance
 3. CNY500 per year for studying materials

Attachment for Majors Offered for Bachelor Degree Programs

Shanghai University of Electric Power offers 30 undergraduate programs with the teaching language of Chinese. The programs start in September of each year and will last for 4 academic years. Please refer to the following list.

- Energy and power engineering
- Mechanical engineering and automation
- Mechatronic engineering
- Environmental Engineering
- Materials chemistry
- Materials science and engineering
- Chemical engineering and technology
- Applied Chemistry
- Electrical engineering and automation
- Automation
- Measurement and control technology and instrument
- Computer science and technology
- Software engineering
- Information security
- Network engineering
- Communication engineering
- Electronic information engineering
- Photoelectric information engineering
- Electronic Science and technology
- Engineering management
- Logistics management
- Industrial and commercial management
- International economy and trade
- Economics
- Information management and information system
- Public Utilities Management
- English
- Japanese
- Information and computing science
- Applied Physics

Attachment for Majors Offered for Master Degree Programs

Known for its teaching quality, research excellence, extraordinary faculty, outstanding facilities, attractive location and talented students, the Graduate School of SUEP offers 16 postgraduate programs and has a total number of 1000 postgraduate students. The teaching language of all the programs is Chinese. The programs begin in September of each academic year and last for 2.5 academic years. The first year is focused on coursework and the rest 1.5 years is for researching and thesis. Here is the list of the 23 programs

- Engineering Thermo physics
- Thermal Power Engineering
- Power Machinery and its Engineering
- Chemical technology
- Applied chemistry
- Material and Chemistry Engineering
- Environment and Chemistry Engineering
- Electrical System and its Automation
- High Voltage and Insulation Technology
- Electrical Electronics and Electrical Transmissions
- Motor and Electrical Equipments
- Electrical system detection and control
- Theory and new technology of Electrical Engineering
- Smart grid information and Communication Engineering
- Economy and Management of Electrical Engineering
- Physics
- Science and Technology of Renewable Energy
- Electrical Information and Technology
- Power Engineering
- Electrical Engineering
- Control Engineering
- Management on Industry and Commerce
- Computer Science & Technology
